Research Volunteers Needed!

Researchers in the Center for OCD, Anxiety and Related Disorders are conducting a study to understand the causes of chronic tic and related disorders.

WE ARE LOOKING FOR VOLUNTEERS OVER THE AGE OF 4 WHO:

- Have Tourette Syndrome (TS) or a Chronic Tic Disorder
  -OR-

- The relative of someone with TS or a Chronic Tic Disorder

This study involves a questionnaire, an interview about your health and behavior history and a spit/blood draw. (About 1-5 hours)

Participants will be compensated for time spent in the study.

If interested please email or call the Research Team at PGENeS@hsc.ufl.edu or 352-294-5564.
