

Writing and Data Analysis Proposal

Do you want access to UF data (individual level data) only or access to aggregate data from other universities? (If other university data selected please go to

<http://www.healthymindsnetwork.org/>) UF data Other Universities

Name of Applicant: _____

College: _____ Program Department: _____

Position:

- Masters Student PhD Student Postdoc Resident Clinical Faculty
 Research Faculty Other: _____

Who is your mentor for this project? _____

Do you need to be matched with a research faculty member, clinical faculty member, content expert, or graduate student/analyst?

- Research faculty member Clinical faculty member Content expert
 Graduate student/analyst Not Needed

Are you a member of COARD? Yes No Want to join <https://coard.psychiatry.ufl.edu/>

Are you a member of SHEAR? Yes No Want to join

Please provide the following information and discuss the plan with the PI/s of the concerned study prior to starting your analysis and writing.

1) Tentative title of the paper/presentation: _____

Please attach a brief summary of your analysis plan that includes the following:
(a-c 2 page max)

- a) Research questions and/or hypothesis
- b) Brief background and justification relevant to research question/hypothesis
- c) Variables to be used in main analysis (the main predictor and outcome variables must be identified). If you plan to calculate/create a specific variable/s from individual items in the data set/s, ensure to see if the calculated variable has been defined and used in prior analyses. If it has not been defined, then present the specific detail of how you propose to calculate/create the variable/s.
- d) Tentative shells of the anticipated tables and figures
- e) Timeline for completion and submission of the manuscript
- f) Target journal/Presentation

2) Do you plan to submit any abstracts based on this analysis? _____

When is the abstract due? _____

What meeting? _____

3) I request: Cleaned data (recommended) Raw data (please provide justification)
